## JOHN GARDNER *Investment Committee*

With 20+ years in venture capital investing and passion about digital health and changing the face of healthcare for the better, John has led and managed investments in companies across the information technology spectrum, including enterprise software, carrier software, systems and component companies. He has been a partner at NGP Capital for 14 years.

John came to NGP Capital from BlueRun Ventures, where he was one of the founding partners. Prior to that, John held a senior business development role at Nokia and has over 20 years of experience advising and working with start-up and emerging businesses, including extensive transactional experience in mergers, acquisitions and venture capital investments.

John earned a BS in economics and political science from Miami University in 1984. He also holds an MBA from the University of Chicago and a law degree from the University of Cincinnati – College of Law.
